

PROVEN • DURABLE • RELIABLE • VERSATILE

## Ultra-Thin Ceramic Cutting Disc

Ultra-thin ceramic cutting discs from the innovative Norton Quantum3 range take cutting performance to new levels in comfort, life and speed. The ceramic grains give this disc its unique character, delivering best in class performance on Steel and Stainless Steel. Choose 1.3mm thick disc for the ultimate speed and comfort and 1.6mm thick disc for absolute stability and longest life.

### MACHINE TOOLS

- Angle Grinder

**TYPE 41**

### FEATURES & BENEFITS

- Quantum3 ceramic grains take cutting performance to a new level, with ultimate precision, speed and accuracy.
- Cut with fewer vibrations as the super sharp ceramic grain continually fractures even under low pressure, helping the operator cut more comfortably for longer.

### APPLICATIONS

- Ultra-Thin Cut-Off

**TYPE 42**

### SPECIFICATIONS – FLAT CUTTING-OFF WHEEL
