PTFE Gas Line Thread Sealant Tape

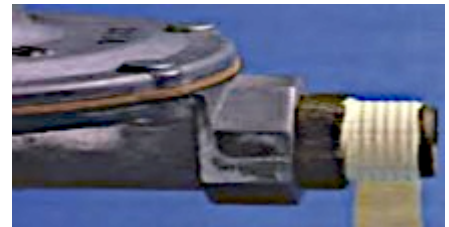

PTFE Gas Line Thread Sealant Tape is a full density, heavy duty tape that permits quick, clean and economical sealing of threaded gas line pipe connections. Its full density makes it ideal for gas lines and other applications requiring the best possible seal. The tape is 99% virgin PTFE (a pigment is added for colouring). Its yellow colour helps to distinguish it from lower density, general purpose thread sealant.

Meets MIL-T-27730A, A-A-58092 (Oxygen Service).

PTFE Gas Line Thread Sealant Tape Physical Properties

Composition	99.5% Virgin PTFE
Colour Pigment (Yellow)	0.5%
Density (Nominal)	1.4 - 1.6 g/cc
Thickness (Nominal)	0.004" (0.1 mm)
Maximum Pipe Size	2" (50.8 mm)
Pressure Rating	Full vacuum to 10,000 psi
Tensile Strength	12,000 psi minimum
Temperature Range	-268°C to +287°C
pH Range	0 - 14
Applications	<ul style="list-style-type: none"> • Gas Line • Oxygen • All Petroleum Oils and Fuels • Water • Steam • Air
Characteristics	<ul style="list-style-type: none"> • No age deterioration • Non-Toxic • Non-Absorbent • Non Flammable • Self-Lubrication • Unlimited Shelf Life
Certifications / Specifications	<ul style="list-style-type: none"> • MIL-T-27730A • A-A-58092 (Oxygen Service)
Country of Origin	USA
Width	1/4", 1/2", 3/4", 1"
