

Universal Bung Thread Adapters

Jessberger thread adapters are made of PE for equalization of different threads at canisters, drums, containers etc... when fixing hand pumps.

All Jessberger hand pumps have a bung adapter (2" BSP male thread or 58mm diameter) that is suitable for metal drums like S 60 or S200. Due to the large variety of different canisters, drums, containers, etc...that are available in the market there is often a need to use an adapter to fix the pump onto the drum securely.

Material of adapters : PE (Polyethylene)

This plastic material is resistant to water, many alkalis, acids and salt solutions. It has only limited chemical resistant to oils, organic solvents and fuels. In contact with some of these substances (depending on the concentration and density) PE tends to swell.

Universal Bung Thread Sizes		
Colours	Thread 1	Thread 2
Brown	2" BSP Fine Ø 58 mm, Internal	DIN 71, Internal Thread
Grey	2" BSP Fine Ø 58 mm, Internal	DIN 61/31, External Thread
Black	2" BSP Fine Ø 58 mm, Internal	DIN 61/31, External Thread
Yellow	2" BSP Fine Ø 58 mm, Internal	DIN 61/31, Internal Thread
White	2" BSP Fine Ø 58 mm, Internal	ASTM Ø 63, Internal Thread
Red	2" Mauser Fine Ø 58 mm, Internal	Trisure, External Thread
Orange	2" BSP Fine Ø 58 mm, Internal	Trisure, External Thread
Blue	2" BSP Fine Ø 58 mm, Internal	2" Mauser, External Thread
Green	2" BSP Fine Ø 58 mm, Internal	DIN 51, Internal Thread
Classifications (Without Any Obligations)		
Blue	External thread Mauser	For 200 litres plastic drums (coarse thread 69 mm)
Orange	External thread Trisure	For 200 litres plastic drums (fine thread 56 mm)
Yellow	Internal thread DIN 61/31	For 30 litres plastic container (59 mm)
Green	Internal thread DIN 71	For 60 litres plastic container (71 mm)
